NATA WORK MAPS

# Question-to-Source Map

A repeated question can reveal a problem earlier in the customer journey.

Use one real, appropriately redacted case. Record evidence and open questions. This is a working aid, not a validated assessment or a contractual form.

01 / Question and customer decision

02 / What the person saw before asking

03 / Where the answer exists and when it appears

04 / Observed difficulty and alternative explanations

05 / Information owner and proposed change

06 / Evidence of better understanding after the change

NATA Question-to-Source Map / v2.0
Keep private records in approved systems. Review the decision when its assumptions change.
