NATA DECISION RECORDS

Intervention Decision Record

A recurring task is evidence to investigate before choosing an intervention.

Use one real, appropriately redacted case. Record evidence and open questions. This is a working aid, not a validated assessment or a contractual form.

01 / Observed recurring event and outcome

02 / Evidence and working explanation

03 / Alternative causes still plausible

04 / Options: remove / clarify / redesign / integrate / automate / retain

05 / Bounded intervention, owner, and failure route

06 / Expected change and evidence that would challenge it

NATA Intervention Decision Record / v2.0
Keep private records in approved systems. Review the decision when its assumptions change.
