NATA WORK MAPS

Single-Job Work Map

A process map should remain connected to a piece of work that actually happened.

Use one real, appropriately redacted case. Record evidence and open questions. This is a working aid, not a validated assessment or a contractual form.

01 / Case reference and process boundary

02 / Observed sequence and people involved

03 / Information and decision needed at each transition

04 / Waiting, returns, and exceptions

05 / Evidence, hypothesis, and alternative explanation

06 / Trial intervention, owner, and review condition

NATA Single-Job Work Map / v2.0
Keep private records in approved systems. Review the decision when its assumptions change.
