NATA DECISION RECORDS

Build Decision Record

Build versus buy includes configuration, integration, ongoing ownership, and exit.

Use one real, appropriately redacted case. Record evidence and open questions. This is a working aid, not a validated assessment or a contractual form.

01 / User, input, action, output, and exception

02 / Options considered, including keeping the process

03 / Normal and failure-case evidence

04 / Data source, permissions, and ownership

05 / Setup, operation, maintenance, and exit costs

06 / Decision, uncertainties, and review trigger

NATA Build Decision Record / v2.0
Keep private records in approved systems. Review the decision when its assumptions change.
